

2022 Anna Nelson, CDA, RDA, MA Scholarship

OSAP has established this scholarship in memory of Anna Nelson, CDA, RDA, MA. Ms. Nelson, a leader in dental assisting and infection control, passionately advocated to advance dental assistants' understanding of, and compliance with, the guidelines, regulations and best practices to prevent disease transmission in dental settings.

2022 OSAP Dental Infection Control Boot Camp™

Boot Camp is a fast-paced, foundational-level educational course presented by national and international experts in dental infection prevention and patient safety. This year, participate by joining us in person in Atlanta, GA, or by purchasing the on-demand recordings!

The course curriculum is based on the CDC [Guidelines for Infection Control in Dental Health-Care Settings-2003](#), the [2016 Summary of Infection Prevention Practices in Dental Settings: Basic Expectations for Safe Care](#), the [OSHA Bloodborne Pathogens Standard \(1910.1030\)](#), the [OSHA Hazard Communication Standard \(1910.2000\)](#), and more. This year, due to the continued COVID-19 pandemic, course content will also cover the most up-to-date interim guidance and any related regulations.

Participants will leave this course with not only the understanding of relevant infection control laws, regulations, guidelines, standards, and best practices, but they will also leave with practical tips on how to implement them in their practice setting.

Award Amount

- 25% off the early-bird member registration rate (\$106.25 value)
- One year of OSAP Premium Membership (\$120 value)
 - View OSAP's membership benefits here: <https://www.osap.org/membership-benefits>
