September 22, 2020 (ATLANTA) - The OSAP Annual Conference brings together the most innovative thinkers in dental infection prevention, occupational health, and patient safety. The 2021 OSAP Annual Conference will be held on June 3 – 5, 2021 in Tucson, AZ, and the program will cover a wide variety of topics relevant to dental infection control and safety including evolving guidance, compliance, and emerging infection prevention and safety issues.

OSAP invites clinicians, educators, researchers, consultants, trainers, compliance directors, policymakers, and industry representatives to submit proposals for a 60-minute concurrent session. OSAP is looking for proposals that:

- Discuss current and emerging issues relating to infection prevention, occupational health, and safety in oral healthcare settings
- Convey evidence-based solutions and best practices
- Stimulate discussion and challenge mindsets
- Call for Proposals Guidelines

View the guidelines at www.osap.org/page/2021AnnualConfProp.

Submit a Proposal

All proposals must be submitted online at www.proprofs.com/survey/t/?title=vq222 by Friday, October 23 to be eligible for consideration.

About the Annual Conference

The OSAP Annual Conference is the premier dental infection prevention and control education event. National and international experts in infection prevention and patient safety will deliver a richly constructed conference combining world-class education with valuable networking activities. OSAP Annual Conference will help participants identify important attributes to develop and enhance global leadership for the optimal delivery of infection prevention and safety.

Anyone who has a role related to dental infection prevention and control and safety, whether a clinician, consultant, educator, policymaker, or sales representative, will benefit from attending OSAP Annual Conference.

About OSAP

The Organization for Safety, Asepsis and Prevention (OSAP) is the only dental membership association solely focused on infection prevention and patient safety education. Our members include individual clinicians, group practices, educators, researchers, consultants, trainers, compliance directors, policymakers, and industry representatives who advocate for safe and infection-free delivery of oral healthcare. OSAP focuses on strategies to improve compliance with safe practices and on building a strong network of recognized infection control experts. OSAP offers an extensive online collection of resources, publications, FAQs, checklists, and toolkits that help dental professionals deliver the Safest Dental Visit for their patients. Plus, online and live courses help advance the level of knowledge and skill for every member of the dental team. For additional information, visit osap.org.
