Monday, June 15, 2020 (ATLANTA) — The continuing COVID-19 pandemic leaves many unanswered questions, especially for those in the dental field. Every year, our sessions cover emerging and salient topics in dental infection prevention, occupational health, and patient safety. To reflect the current state of dentistry we have updated our agenda to provide multiple COVID-19 specific sessions to help provide clarity and guidance through this unprecedented time.

Here are just a few of our new sessions:

- A 360° View of Point of Care Testing for COVID-19
- Aerosols in Dentistry: A Data-Driven Review of Aerosol Reduction
- CDC Division of Oral Health: Fulfilling Core Missions and COVID-19 Priorities
- How have DSOs Responded to COVID-19?
- How to Operationalize Interim Guidance and Talk to Patients During the COVID-19 Pandemic
- Using History and Science to Anticipate the Future
- And so many more!

View the full agenda at www.osap.org/page/2020annualconf

“No other event gives participants more focused expertise on dental infection prevention and safety. And because we understand everyone in the dental community has been affected by COVID-19, we have reduced registration fees by 50% to help make this important education accessible to the dental community. We hope that you will join us online from August 13 – 15, 2020 as we lean into innovation and set forth on a new journey with new and familiar faces,”

says OSAP Executive Director Michelle Lee, CPC.

Registration includes:

- Relevant content presented by 40+ nationally and internationally recognized speakers
- Practical tips and resources to optimize compliance
- Top-notch networking opportunities
- Ability to interact with exhibitors in our virtual exhibit hall
- Abstract presentations from infection control clinicians, educators, and researchers
- Access to on-demand recordings for one-year
- Up to 14.50 CDE credits, ADA CERP, and AGD PACE recognized

Early-bird rates are available now through Friday, July 17 at www.osap.org/page/2020annualconf.

About OSAP

The Organization for Safety, Asepsis and Prevention (OSAP) is the only dental membership association solely focused on infection prevention and patient safety education. Our members include individual clinicians, group practices, educators, researchers, consultants, trainers, compliance directors, policymakers, and industry representatives who advocate for safe and infection-free delivery of oral healthcare. OSAP focuses on strategies to improve compliance with safe practices and on building a strong network of recognized infection control experts. OSAP offers an extensive online collection of resources, publications, FAQs, checklists, and toolkits that help dental professionals deliver the Safest Dental Visit for their patients. Plus, online and live courses help advance the level of knowledge and skill for every member of the dental team. For additional information, visit osap.org.
