“As a leader in Amalgam Separation and dental waste management, Solmetex is proud to partner with OSAP in support of their on-going efforts,” writes Bill Gerety, Solmetex VP of Marketing & Customer Experience. “During its 25-year history, Solmetex has dedicated itself to developing innovative waste solutions that place environmental responsibility at the forefront,

and will continue to support organizations, like OSAP, who believe in 'doing well, by doing good'."

### **About Solmetex**

Solmetex is excited to be celebrating 25 years in the amalgam separation industry. In 1999, Solmetex® designed the Hg5 Amalgam Separator which quickly became the gold standard in amalgam separation. Solmetex has extensive experience in the fields of water chemistry, process engineering, and chemical separation science. Our comprehensive product line provides all the necessary components to meet or exceed the current requirements of the EPA "Dental Rule". Today, Solmetex is proud to be the industry leader and manufacturer of the NXT Hg5 series of Amalgam Separators.

### **About OSAP**

The Organization for Safety, Asepsis and Prevention (OSAP) is the only dental membership association solely focused on infection prevention and patient safety education. Our members include individual clinicians, group practices, educators, researchers, consultants, trainers, compliance directors, policymakers, and industry representatives who advocate for safe and infection-free delivery of oral healthcare. OSAP focuses on strategies to improve compliance with safe practices and on building a strong network of recognized infection control experts. OSAP offers an extensive online collection of resources, publications, FAQs, checklists, and toolkits that help dental professionals deliver the Safest Dental Visit for their patients. Plus, online and live courses help advance the level of knowledge and skill for every member of the dental team. For additional information, visit [osap.org](http://osap.org).
