

Why should my company become a Corporate Member?

Corporate Membership is a way to partner with OSAP for a shared vision to make every dental visit a safe visit, and it provides access to a higher level of OSAP services and opportunities than our standard membership options. An OSAP Corporate Membership allows for:

- Networking with key opinion leaders
- Gaining knowledge that benefits not only your employees but also your customers
- Becoming a more relevant and trusted brand

The Corporate Membership program acknowledges and distinguishes companies that demonstrate an ongoing commitment to OSAP and safe dental care. In addition, it helps to sustain critical services delivered by OSAP, such as:

- Advocacy
- Education
- Communications
- Strategic Development
